DOCUMENT

CIA. PIC/JR-16/60, Location and Description of FLIM FLAM Station No 3, Lake Balkhash, USSR, Jul 60 (TSDC)

REMARKS

The FLIM FLAM station reported in the Makat area of the USSR has been identified on photography of [REDACTED]. The station is located at 47-55N 53-48E, 25 nautical miles northeast of Makat. This station appears similar to FLIM FLAM Station No 3 on the western shore of Lake Balkhash (see CIA/PIC/JR-16/60, listed above). The Makat station consists of an interferometer, a probable instrumentation area (containing a small circular concrete pad), a control area, an airfield, and a support area. No timing-tone rhombics have been identified.
